- ▷ 115V power outlet
- ▷ Cargo convenience net and shade

Standard overhead console with map lights

Available rear-seat audio controls

¹Always use safety belts and the correct child restraints for your child's age and size. Even in vehicles equipped with a Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. See the **Owner's Manual** for more safety information. ²Call 1-888-4-ONSTAR (1-888-466-7827) and visit www.onstar.com for system limitations and details.

³Available in the 48 contiguous United States. Required \$12.95 monthly subscription sold separately after three trial months. All fees and programming subject to change. Subscription subject to customer agreement. For more information, visit www.gm.xmradio.com.

ACADIA HEAD-UP DISPLAY

The Acadia's Head-up Display projects vital data such as speed and direction up onto the inside of the windshield, where it appears to float in front of the view ahead, reducing the need to look down at the instrument panel. Ideal for those caught up in the thrill of driving Acadia.

SLE CLOTH INTERIOR

The Acadia's cloth interior shown with second-row bench seat.

¹Map does not cover Puerto Rico, the Virgin Islands and portions of Canada. ²Maximum trailer ratings are calculated assuming a base vehicle, except any options necessary to achieve the rating, plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details.
