ACADIA

IT'S ALL THAT.

Acadia brings together everything you're looking for in one brilliantly realized crossover vehicle. For starters, there's Acadia's athletic good looks and spacious, versatile, well-equipped interior. Not to mention excellent all-season traction, with the option of a high-tech all-wheel-drive system. On the road, Acadia delivers the performance, handling and overall refinement of a premium sedan. Yet at the same time, it offers the highest cargo and towing capacities in its class.* Acadia also delivers the best fuel efficiency of any eight-passenger crossover,** thanks to advanced technologies like Direct Injection, Variable Valve Timing (VVT) and a six-speed automatic transmission. Add in a five-star safety rating† and the fact that Acadia was named a "Top Safety Pick 2009" by the Insurance Institute for Highway Safety (IIHS)†† and you've got a combination that's impossible to resist. Presenting the professional grade 2010 Acadia from GMC. It's all that.

* Based on 2009 GM Mid-Utility Crossover segment and latest available competitive information at time of printing. Excludes other GM vehicles. Cargo and load capacity limited by weight and distribution.

** 2010 Acadia ratings based on GM testing in accordance with Transport Canada test methods. Competitive information based on Natural Resources Canada's 2009 Fuel Consumption Guide for 2009 GM Mid-Utility Crossover segment and latest published information at time of printing. Excludes other GM vehicles. Your actual fuel consumption may vary.

† Five-star rating is for the driver and front-passenger seating positions in the frontal crash test and for the front and rear seating positions in the side-impact crash test. Model tested with standard side-impact air bags. U.S. government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP) (safercar.gov).

GMC

MADE YOU LOOK.

Acadia is one crossover vehicle that's impossible to ignore. The lines are clean yet muscular, and the long wheelbase and broad front and rear tracks add an athletic stance. There's a GMC-signature grille that signals Acadia's professional-grade heritage, and a close look is rewarded by a host of premium details, including fast-illuminating LED tail lights. The Acadia body is also as functional as it is beautiful. During the development process, GMC's engineers spent more than 5000 hours in the wind tunnel, refining every detail. The result: a drag coefficient of just 0.344, so you enjoy a calm, quiet highway ride and improved fuel efficiency.

ACADIA SLT-1, shown in Red Jewel Tintcoat with available equipment.

GO AHEAD, SPOIL THEM.

Acadia is a refined, comfortable and entertaining way for as many as eight fortunate people to get around. The cabin is attractively styled and, with a wheelbase over three metres long, remarkably spacious. The driver and front passenger can enjoy the four-season luxury of available heated and cooled bucket seats. For your rear passengers, entry and exit into the third row are a breeze, thanks to Acadia's low ride height and the SmartSlide™ second-row seats. There's also an excellent range of entertainment choices, including an available rear DVD entertainment system complete with Bose® 5.1 surround sound audio. Add it all together and you've got an elegant, luxurious cabin that's equipped to spoil every occupant.

ACADIA SLT-1 interior, shown with Light Titanium leather-appointed seats and other available equipment.

GO WITH CONFIDENCE.

Acadia has been carefully designed and equipped to maximize your control in all driving situations. A commanding seating position and outstanding sightlines assure a clear view of the road ahead. Solar-Ray® tinted glass and available heated exterior rear-view mirrors enhance your vision in varying weather conditions. You'll also notice that the round analogue gauges are legible at a glance, and that every switch and control is carefully positioned for intuitive use. For an even higher level of control, Acadia offers a whole array of available high-tech equipment, such as a Rearview Camera System, ultrasonic rear parking assist and Head-Up Display (HUD) instrumentation that significantly lessens your need to take your eyes off the road. It all pays off in a real sense of control when you're behind the wheel.

Acadia's available Rearview Camera System helps you back up in greater safety. With the transmission in 'Reverse', it automatically displays an image of the area directly behind the vehicle in the rear-view mirror or the DVD navigation screen, when so equipped.

ACADIA SLT-1 interior, shown in Light Titanium with available equipment.

MADE TO MULTI-TASK.

Kids. Groceries. Grandparents. Snowboards. Camping gear. Luggage. The boat. Whoever and whatever you need to carry, Acadia is the perfect solution. Acadia's versatility starts with an interior large enough to accommodate eight people and their gear with ease. SmartSlide second-row seats can be eased forward with one hand when you have passengers accessing the third-row seats. Any time you need more cargo space, the second- and third-row seatbacks also fold flat to create up to 3283 litres of room – the most in Acadia's class.* An available power liftgate and a low 780 mm liftover height make loading and unloading a breeze. And the boat? When equipped with the Trailer Towing Package, a best-in-class maximum trailer rating of 2359 kg (5200 lb.),* Acadia is ready to make the run to the lake any time you are.

* Based on 2009 GM Mid-Utility Crossover segment and latest available competitive information at time of printing. Excludes other GM vehicles. Cargo and load capacity limited by weight and distribution.

All Acadia 2nd-row seats incorporate a SmartSlide feature that allows them to be moved forward with one hand for easy access to the 3rd-row seat. As the seatback slides further forward, the rear of the seat cushion automatically moves up and forward to maximize space.

ACADIA SLT-2, shown in Red Jewel Tintcoat with available equipment.

A CASE STUDY IN STATE-OF-THE-ART ENGINEERING.

FIVE-STAR FRONTAL AND SIDE-IMPACT CRASH TEST RATING*

3.6L V6 VVT ENGINE

Thanks to high-tech features like Variable Valve Timing (VVT) and Direct Injection, this state-of-the-art 3.6-litre V6 generates 288 horsepower and provides excellent performance, even when you're carrying a full load of passengers and cargo. Fuel consumption is rated at 12.7 L/100 km (city) and 8.4 L/100 km (highway).**

6-SPEED AUTOMATIC TRANSMISSION

Acadia's standard 6-speed automatic transmission helps make the most of the available power. It also includes the added convenience of tap-up/tap-down shift control, which allows you to shift up or down a gear simply by pressing a button on the shift lever.

FULL-TIME ALL-WHEEL DRIVE (AWD)

When traction deteriorates, Acadia's available full-time AWD system automatically adjusts torque distribution to each of the 4 wheels to make the most of the available grip and help keep you moving.

BODY-FRAME INTEGRAL ARCHITECTURE

Compared with SUVs that use separate ladder frames, Acadia's advanced body-frame integral architecture provides a lower step-in height, more refined, car-like ride and handling and reduced overall vehicle weight for improved fuel efficiency.

STABILITRAK® ELECTRONIC STABILITY CONTROL

Electronic stability control has been proven to reduce fatal single-vehicle crashes in light trucks by a remarkable 63 percent.† StabiliTrak electronic stability control is standard on every Acadia model.

TIGHT TURNING CIRCLE

Acadia's turning circle measures just 12.3 metres, comparable with some compact SUVs. Benefits include excellent manoeuvrability and easy parking.

AIR BAGS

Acadia features frontal air bags and side-impact seat-mounted air bags for the driver and front passenger, along with roof-mounted side-impact head curtain air bags, that provide protection for all 3 seating rows.††

GM OIL LIFE MONITORING SYSTEM

A computer-based system assesses engine oil condition and optimizes oil change intervals based on vehicle operating conditions. The benefits include reduced oil change frequency, lower overall operating costs and many environmental benefits.

TIRE PRESSURE MONITORING SYSTEM

Acadia's standard tire pressure monitoring system constantly checks the inflation of each tire (excluding the spare) and alerts you via a message in the Driver Information Centre any time it senses that a tire requires attention.

HIGH-STRENGTH STEEL

Ultra-high-strength steel – 4 times stronger than regular carbon steel – is used extensively for primary load paths in the Acadia body-frame architecture. Dual-phase steel, which is 3 times stronger than carbon steel, is used in other key areas. Benefits of these advanced materials include increased structural rigidity and superior crash protection.

* Five-star rating is for the driver and front-passenger seating positions in the frontal crash test and for the front and rear seating positions in the side-impact crash test. Model tested with standard side-impact air bags. U.S. government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP) (safercar.gov).

** 2010 Acadia ratings based on GM Testing in accordance with Transport Canada test methods. Your actual fuel consumption may vary.

† According to information published by the US Department of Transportation's National Highway Traffic Safety Administration, July 2007. <http://www-nrd.nhtsa.dot.gov/Pubs/810794.PDF>

†† A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.

Acadia is offered in a choice of four attractive models. To help you find the one that's just right for you, some of the major features that differentiate one Acadia model from another are listed below.

ACADIA SLE-1

The following features are standard on Acadia SLE-1:

- 288 hp 3.6L DOHC V6 engine with Direct Injection and Variable Valve Timing (VVT)
- Best-in-class towing capacity of up to 2359 kg (5200 lb.) when equipped with Trailer Towing Package
- GM Oil Life Monitoring System
- 6-speed automatic transmission
- 4-wheel disc brakes with ABS and Panic Brake Assist
- StabiliTrak electronic stability control system
- Traction control
- 4-wheel independent suspension
- Dual exhaust chrome tips
- 18" painted aluminum wheels
- Tire pressure monitoring system
- Silver painted roof rails with black end caps
- Black, power exterior mirrors
- Black bodyside mouldings
- Remote keyless entry system
- 6 air bags
- Air conditioning
- Power windows and door locks
- Tilt and telescoping steering column
- Cruise control
- 8-passenger seating with SmartSlide flat-folding 2nd-row 60/40 split bench seat
- 6-speaker sound system with CD player and MP3 playback
- XM Satellite Radio™
- OnStar® with 1 year of the Directions & Connections Plan.

ACADIA SLE-2

Acadia SLE-2 includes the equipment of Acadia SLE-1 plus the following features and upgrades:

- Heated, body-colour power exterior mirrors with turn signals
- Body-colour bodyside mouldings
- Fog lights
- Ultrasonic rear parking assist
- Rearview Camera System
- Remote vehicle starter system
- Power 6-way driver's seat adjuster
- Power 2-way front-passenger seat adjuster
- Leather-wrapped steering wheel with sound system controls
- Auto-dimming interior rear-view mirror
- Bluetooth® mobile phone connectivity.

ACADIA SLT-1

Acadia SLT-1 includes the equipment of Acadia SLE-2 plus the following features and upgrades:

- Variable-assist power rack-and-pinion steering
- Chrome beltline moulding
- 19" machined aluminum wheels
- Enhanced Driver Information Centre with exterior temperature and compass display
- Tri-zone automatic climate control with individual settings for driver, front-passenger and 2nd/3rd-row controls for rear-seat passengers
- Heated Leather-appointed seating surfaces
- SmartSlide 2nd-row captain's chairs
- Universal home remote transmitter
- Bose 10-speaker premium sound system
- Rear-seat audio controls.

ACADIA SLT-2

Acadia SLT-2 includes the equipment of Acadia SLT-1 plus the following features and upgrades:

- High-Intensity Discharge (HID) low-beam headlights
- Heated, body-colour, power folding exterior mirrors and auto-dimming driver's side mirror
- Power rear liftgate
- 20" chrome-clad aluminum wheels
- Power 8-way driver's seat adjuster with power lumbar Memory settings for driver's seat and exterior rear-view mirrors
- Power 4-way front-passenger seat adjuster with power lumbar
- 115-volt power outlet located in front-row centre console
- Express up/down driver's window and express-down front-passenger window.

THE FINAL TOUCH

With quality GMC Accessories, it's easy to take your new Acadia's style, comfort and capability to new heights. To ensure outstanding fit, finish and performance, all GMC Accessories are engineered to the same high standards as your Acadia. That's why they can be covered under the 3-year/60,000 km New Vehicle Limited Warranty.* When you purchase your new Acadia through GMAC, your GMC Accessories can also be included in your finance agreement. Ask your dealer for a complete listing of the GMC Accessories to help you make your Acadia unmistakably yours. Or visit gm.ca

* Whichever comes first, when permanently installed by the dealer at the time you purchased your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

SOME AVAILABLE ACADIA ACCESSORIES INCLUDE:

- 19-inch and 20-inch wheels
- Assist steps
- Roof-mounted hard cargo carrier
- Cargo security shade
- Splash guards
- Dual player DVD headrest
- Hitch-mounted ski or bike carrier
- Moulded sunroof weather deflector
- Roof-mounted luggage cross rail package
- Side-window deflectors
- Premium all-weather floor mats
- Two-way remote starter.

GMC ACCESSORIES

ONSTAR

Does your vehicle have a help button? If you have OnStar*, you can get the help you need at the push of a button. If you're in a collision, you don't even need to ask for help – sensors around your car can automatically alert an OnStar Advisor. If your vehicle is stolen, we can use GPS technology to help police find it. OnStar and 1 year of the Directions & Connections Plan is included on all Acadia models. An integral part of the Directions & Connections Plan is Turn-by-Turn Navigation** – the simplest and smartest navigation system available. Just push the OnStar button and tell the Advisor where you want to go, and turn-by-turn directions are downloaded to your vehicle. No one offers more ways to help on the road. Learn more at onstar.ca

* OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Ability to locate stolen vehicles varies with conditions. Call 1-888-4-ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

** Turn-by-Turn Navigation not available in certain areas. Visit onstar.ca for coverage map.

XM SATELLITE RADIO

Your listening preferences are very personal. XM Satellite Radio gives you access to the largest playlist on the planet and the most commercial-free music in digital-quality sound. That's on top of news, talk, comedy and sports channels – including more than 1000 NHL games. It all adds up to 130 channels to choose from, coast to coast.† Why offer so much choice? XM Satellite Radio has to appeal to a wide range of tastes, with more than 9 million subscribers. And it's included on all Acadia models. Ask your dealer for more information.

† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period.

– with 3rd-row seats folded	1945 (68.7)
– with 2nd- and 3rd-row seats folded	3283 (115.9)
Fuel tank, L (imp. gal.)	83.0 (18.2)
Towing max. kg (lb.) [†]	2359 (5200)

S – Standard. 0 – Optional individually or in combination with other optional equipment.

1 – Not available with Trailer Towing Package.

2 – Interim availability.

3 – Included with upgraded audio system.

4 – Leather-appointed seats on front- and 2nd-rows only, 3rd-row is vinyl.

5 – Includes rear-seat audio controls and tri-zone automatic climate control.

6 – Includes 115 volt AC 3-prong outlet in rear of front-row centre console.

7 – Rearview Camera and compass are integrated into navigation display. At time of printing, detailed map coverage is available for most urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is limited outside these areas.

8 – Requires available power liftgate.

* OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Ability to locate stolen vehicles varies with conditions. Call 1-888-4-ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

** Audible Turn-by-Turn Navigation availability impacted by some geographic/cellular limitations, advisor-assisted routing available.

† All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

†† Available in 10 Canadian provinces and 48 contiguous United States. Subscription sold separately after trial period.

‡ When properly equipped, trailer towing capacity is the weight of the trailer, its load or contents plus any other weight added to the tow vehicle. Optional equipment, passenger or cargo will reduce trailer towing capacity. All towing recommendations are subject to change. Trailer tongue load should be 10% of the maximum trailer weight but should not exceed the load rating specified for the vehicle, engine or hitch combination. Many trailer towing applications require additional optional equipment. See your dealer or refer to the Acadia Owner's Manual for details. For more information on trailer towing go to gm.ca

PEACE OF MIND, STANDARD WITH EVERY GMC MODEL

When you build them with quality, you can back them with confidence. That's why General Motors of Canada backs every GMC model with the best coverage in Canada. Program highlights include:

- 3-year/60,000 km New Vehicle Limited Warranty*
- 5-year/160,000 km Powertrain Component Limited Warranty, with \$0 deductible on repairs and the warranty is fully transferable at no charge*
- 5-year/160,000 km Courtesy Transportation*
- 5-year/160,000 km 24/7 Roadside Assistance*
- 6-year/160,000 km rust-through perforation coverage*
- 8-year/130,000 km coverage on catalytic converters and powertrain control modules (PCMs).*

*Whichever comes first. Conditions and limitations apply, see dealer for details.

OTHER OWNERSHIP PRIVILEGES AND PROGRAMS:†

- For information about GMAC visit gmac.ca or call 1-800-616-4622.

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, the GM emblem, GMC, Acadia and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, SmartSlide, Solar-Ray and StabiliTrak are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

GMC

WE'LL TAKE YOU EXACTLY WHERE YOU WANT TO GO.

You demand more from a vehicle than ever before. Exactly the same can be said of GMC. For starters, you're looking for greener driving choices – GMC offers a range of vehicles that incorporate technology that helps reduce fuel consumption and emissions, like Active Fuel Management®, Variable Valve Timing and Direct Injection. Down the road, there are plug-in electric vehicles and other emerging technologies that point the way to a future of zero-emissions driving.

At GMC, we take pride in more than the quality of our vehicles. We are also proud to be the Official Vehicle Supplier of the Vancouver 2010 Olympic and Paralympic Winter Games. To help create a more sustainable 2010 Winter Games, we are committed to providing the most environmentally friendly fleet of all time through the supply of hybrid, alternate fuel, and other advanced green technology vehicles. The Drive is On.
