2011 GMC ACADIA

GMC

GMC ACADIA IS ENGINEERED WITH THE UNDERSTANDING THAT LIFE IS UNPREDICTABLE. WITH FLEXIBLE INTERIOR SPACE, CLASS-LEADING CARGO CAPACITY, BLUETOOTH®[1] CONNECTIVITY AND ONSTAR,[2] IT'S DESIGNED TO HELP YOU TAKE CHARGE OF YOUR DAY, WHATEVER DIRECTION IT MAY TAKE. THIS IS ACADIA. A PREMIUM CROSSOVER THAT CAN TAKE ON ANY CHALLENGE YOU SEND ITS WAY WITH CONFIDENCE. IT'S WHAT HAPPENS WHEN YOU NEVER SAY NEVER.

ENGINEERED TO MAKE IT EASY.

ACADIA DENALI

INTRODUCING THE DENALI OF CROSSOVERS.

This year, Acadia joins the exclusive Denali family, and the results are striking. Acadia Denali features a sleek appearance and unique exterior styling cues. Premium materials, exceptional interior acoustics, along with purposeful technology and convenience features transform its comfortable cabin into your own personal retreat.

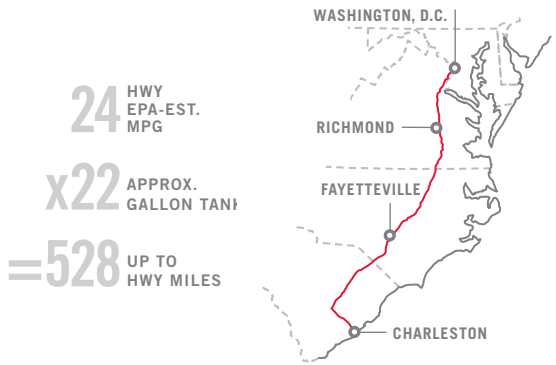
REFINED APPEARANCE

Acadia Denali is designed with a distinctive look and feel that commands attention. Outside, a honeycomb grille, streamlined bodyside moldings with chrome accents, body-color rocker panels, dual chrome exhaust tips and 20-inch two-tone chrome-clad wheels accentuate its athletic stance. Inside, heated and cooled front leather seating surfaces, mahogany wood steering wheel, plus interior wood tones and chrome accents emphasize luxury and refinement.

UNMATCHED FLEXIBILITY

Acadia Denali features class-leading cargo capability and seating for up to eight passengers. Its second- and third-row seats can fold down to create up to 116.9 cubic feet[1] of cargo space behind the first row, helping you to accommodate changing combinations of passengers and cargo with ease.

FIGURE 1: ADVANCED ENGINE TECHNOLOGY



Direct-injection technology delivers responsive engine power and gives Acadia Denali better highway fuel economy[2] than any eight-passenger SUV. It also gives Acadia Denali a highway range of up to 528 miles, so you can spend more time on the road, and less time at the pump.

Unless otherwise noted, all competitive claims based on 2010 GM Mid-utility Crossover segment and latest available information at the time of printing.

[1]Cargo and load capacity limited by weight and distribution. [2]FWD models 24 hwy EPA-estimated mpg.

DENALI INTERIOR

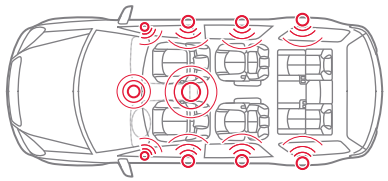
A CROSSOVER-ACHIEVER.

Acadia Denali is equipped to give you comfort and control of your driving environment. With standard features including a class-exclusive advanced Head-Up Display, Bose® premium sound system and heated and cooled front seating, it's engineered to stand apart from other crossovers, and everything you'd expect from GMC.

EXCEPTIONAL INTERIOR ACOUSTICS

Acadia Denali uses laminated glass and the strategic application of liquid-applied sound deadeners to reduce road and wind noise to ensure a peaceful commute.

FIGURE 2: BOSE SOUND SYSTEM WITH AVAILABLE SURROUND SOUND



For optimum listening pleasure, the Bose sound system for Acadia Denali features 10 speakers strategically located throughout the cabin. Available digital 5.1 surround technology unlocks the benefit of digital recordings to make music sound full and detailed.

YOUR PORTAL TO LISTENING ENJOYMENT

To personalize your listening experience, a USB port[1] is included on all Acadia Denali and SLT models. Simply plug in your iPod® or MP3 player to see your play lists on the audio display, make a selection and play your favorites using the audio system controls.

FIGURE 3: CLASS-EXCLUSIVE HEAD-UP DISPLAY (HUD)

Acadia Denali projects important driving information at eye level, so you can monitor speed and other functions without looking down. This includes speedometer and RPM readings, turn signal and high-beam indicators, transmission position, outside air temperature and, when equipped with a navigation radio, Turn-by-Turn Navigation information.

HEATED AND COOLED SEATING

Acadia Denali is equipped with perforated leather-appointed front seats designed to keep you comfortable as weather conditions change. They can warm you up with built-in heating elements, or cool you with air that flows through the perforated leather seating surfaces.

ONE-TOUCH NAVIGATION

With advanced mapping capabilities in 2-D or 3-D view, the available DVD-based Touch-Screen Navigation System[2] will help lead you to your destination. It includes 3 months of XM NavTraffic,[3] giving you construction, road closure and accident reports in real-time, to help you avoid any unexpected tie-ups and arrive on time.

[1]Not compatible with all devices.
[2]Map coverage for Puerto Rico and the Virgin Islands available on separate disc. Coverage not available for portions of Canada.
[3]Required XM Radio and XM NavTraffic monthly subscriptions sold separately by XM after trial period. XM NavTraffic only available in select markets. For more information, visit xmradio.com/navtraffic.

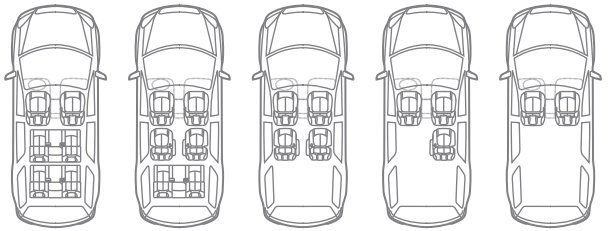
SEATING CONFIGURATIONS

SEATING FOR EIGHT WITH ROOM TO STRETCH.

Not only does Acadia seat eight passengers, it accommodates them with generous leg room, shoulder room and head room. Its spacious interior includes flexible seating arrangements and clever storage options to create a comfortable environment for you, and up to seven of your friends.

FIGURE 4: SEATING CONFIGURATION



OPEN FLOOR PLAN

Acadia's interior reflects the very notion of what personal space should be—comfortable and inviting. Stadium seating, plus noticeable shoulder room in the second and third rows give passengers a sense of autonomy usually reserved for the front seat. And to keep things organized, Acadia offers multiple storage spaces, including an available second-row center console.

FIGURE 5: INTELLIGENT SEATING

Offering the convenience of one-handed operation, SmartSlide seating allows passengers to enter or exit Acadia with ease. With the seatback in the forward position and the seat cushion folded, the system gives second-row seats up to 18 inches of forward travel for generous access to the third row.

TRI-ZONE AUTOMATIC CLIMATE CONTROL

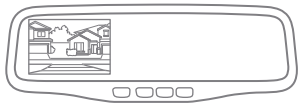
This available system gives front passengers the freedom to personalize their own heat and air conditioning settings up to 30 degrees apart, and includes separate controls for the second and third rows, ensuring the comfort of all passengers.

TECHNOLOGY

BUILT-INTUITION.

Acadia provides you with a wealth of purposeful technologies designed to help keep you in touch and in charge of your day. Clever innovations, including available hands-free calling and an available Rearview Camera System, can help you efficiently respond to the events of your day, and still take it all in stride.

FIGURE 6: AVAILABLE REARVIEW CAMERA SYSTEM



As soon as you shift into reverse, a view of what's behind you is displayed in a portion of the rearview mirror, to help you navigate a driveway or parking space more effectively (not available on SL models). On Denali and SLT models, when you choose Touch-Screen Navigation, the camera display is integrated into the NAV screen.

BLUETOOTH CONNECTIVITY[1]

Thanks to available Bluetooth connectivity, you can sync up your Bluetooth mobile device with Acadia for in-vehicle, hands-free calling. Steering-wheel-mounted controls help you start a call and control volume, then dial by voice and listen to your call through the audio system. Now you can stay in touch without ever taking your hands from the wheel.

XM SATELLITE RADIO[2]

More entertainment. More information. More choices. XM delivers outstanding sound quality and over 170 channels of the best in music, news, sports, comedy, talk, XM Instant Traffic and Weather and more, coast to coast. Three trial months of service. See page 25 for details.

REAR-SEAT DVD ENTERTAINMENT SYSTEM

This available system provides a variety of audio, video and gaming options designed to entertain rear-seat passengers while traveling. It includes a DVD player with remote control, overhead display and two sets of wireless infrared headphones, plus audio and video input jacks that are compatible with most popular gaming systems.

[1]Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. [2]XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit gm.xmradio.com.

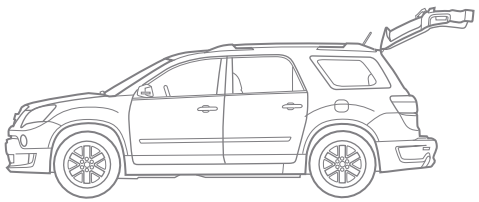
INTERIOR FLEXIBILITY

ACCESS CAPACITY.

Acadia offers exceptional cargo capacity. It is engineered to provide you with more room behind the front row than any other vehicle in its class, and it's equipped for comfortable, convenient access to all three rows.

FIGURE 7: POWER LIFTGATE

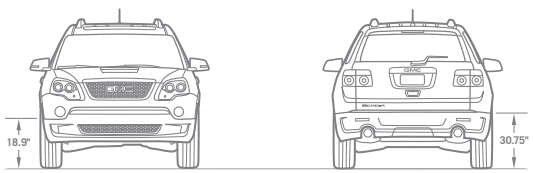


For effortless loading and unloading, the available power liftgate (not available on SL models) gives you push-button remote access to the rear cargo area. Electronic obstacle detection helps prevent damage to the liftgate.

KEYLESS REMOTE START

With the simple press of a button, you can start Acadia from nearly 200 feet away, so it's ready to go as soon as you are. Once started, its climate control system adjusts to colder or hotter outside temperatures, automatically. In colder weather, the rear window defogger and heated mirrors are also activated. Remote start is available on SL, and standard on all other Acadia models.

FIGURE 8: LOW STEP-IN AND LIFT-OVER HEIGHT



One of the benefits of Acadia's body-frame integral design is that it creates a low step-in and lift-over height, making Acadia easy to enter, exit and load.

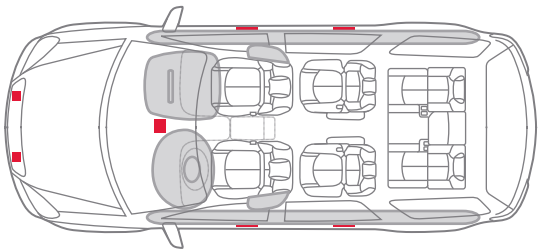
SAFETY AND SECURITY

HELP WHEN YOU NEED IT MOST.

Acadia offers a comprehensive system of protection to give you help when you need it most. It's engineered to assist you before a crash, with advanced chassis control technology (see page 18 for details), during a crash, when every second counts, and thanks to OnStar, after a crash, even if you can't ask for help yourself.

FIGURE 9: SIX AIR BAGS AND PASSENGER SENSING SYSTEM



To reduce the risk of injury, Acadia is equipped with six air bags:[1] two front dual-stage air bags and two side-impact air bags for the driver and front-seat passenger, and head curtain side air bags with rollover protection for passengers in outboard seating positions. The front passenger air bag features a Passenger Sensing System. The system uses a sensor within the front passenger seat to detect the weight of an occupant. Under a certain weight, the system automatically turns off the air bag.

SAFETY CAGE MANAGEMENT SYSTEM

To help preserve occupant space during a crash, Acadia's safety cage is engineered to absorb and channel crash energy. Crush zones at the front and rear of Acadia are designed to collapse on impact, allowing them to absorb energy and help keep the safety cage intact.

ONSTAR AUTOMATIC CRASH RESPONSE[2]

With OnStar, you get the help you need, even if you can't ask for it. In a crash, OnStar can call for help, send your GPS location to emergency services and can even stay on the line until help arrives. For more details, see page 25 or visit onstar.com.

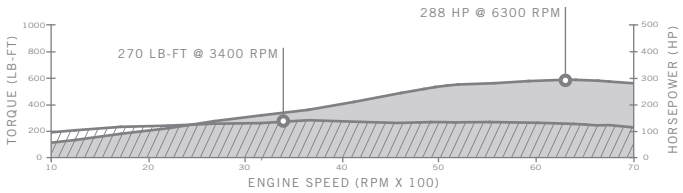
[1]Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. [2]Visit onstar.com for details and system limitations.

POWER AND PERFORMANCE

PROOF THAT POWER AND EFFICIENCY CAN COEXIST.

When it comes to performance, Acadia does not compromise. It delivers unsurpassed standard torque, more standard V-6 horsepower than any competitor in its class and better highway fuel economy than any other eight-passenger SUV.[1]

FIGURE 10: STANDARD 3.6L DIRECT-INJECTED V-6



EFFICIENT POWER

Acadia has a 3.6L V-6 engine that delivers 288 horsepower and 270 lb-ft of torque, performance you'll notice immediately during acceleration or merging onto a busy highway. Its direct-injection technology improves efficiency and reduces emissions, and at 24 mpg, gives Acadia better highway fuel economy than any other eight-passenger SUV.[1]

ADVANCED 6-SPEED AUTOMATIC TRANSMISSION

It's the transmission that makes the most out of Acadia's V-6 engine power. It features a wide ratio spread with a very low first gear for brisk acceleration from a stop, and a very high sixth gear overdrive ratio that improves highway fuel economy. The transmission can also change gears as driving conditions change to help reduce brake wear and give you more control on downhill slopes.

ONSTAR VEHICLE DIAGNOSTICS[2]

With the help of OnStar, Acadia can automatically send you a monthly e-mail summary of hundreds of checks of your engine, transmission and antilock brakes, along with important maintenance tips. Services include OnStar Vehicle Diagnostics, a powerfully simple way to know what your vehicle's key operating systems need. A six-month trial subscription to OnStar Directions & Connections[2] is one of the benefits of Acadia ownership.

[1]EPA-estimated mpg (FWD) 24 hwy. [2]Visit onstar.com for details and system limitations. Diagnostic capabilities vary by model.

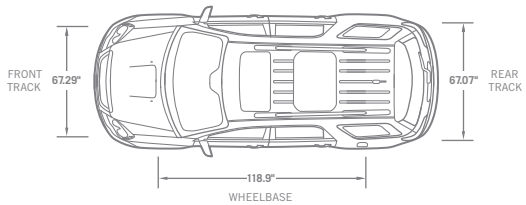
RIDE AND HANDLING

ENGINEERED TO STAY THE COURSE.

Acadia's suspension, braking and stability control systems work together to manage the most challenging driving conditions, so you can take on your commute smoothly, with confidence.

FIGURE 11: WIDE FRONT/REAR TRACKS/LONG WHEELBASE



Acadia has a low center of gravity and a long and wide footprint for a secure stance.

OUTSTANDING RIDE AND HANDLING CHARACTERISTICS

Thanks to a MacPherson-strut front and a linked H-arm rear suspension system, Acadia is confident, responsive and precise. The rear suspension mounts on an isolated cross-member subframe, which helps reduce cabin noise.

AVAILABLE ALL-WHEEL DRIVE (AWD)

An available electronically controlled on-demand AWD system helps Acadia offer outstanding ride and handling. It constantly monitors and adjusts torque quickly and seamlessly between front and rear wheels as necessary. At 16 city/23 hwy EPA-estimated mpg, it also offers outstanding fuel economy.

STABILITY CONTROL

Acadia has a StabiliTrak electronic stability control system that can sense vehicle speed, brake pressure, lateral acceleration, turning and even the position of your steering wheel to help you keep on track. The system feeds this data into an onboard computer, then adjusts engine speed and brake pressure to any individual wheel to improve safety, stability and control in most driving conditions.

TIRE PRESSURE MONITORING SYSTEM[1]

The Tire Pressure Monitoring System is one of many tools designed to measure and monitor Acadia's mechanical systems. It's advanced technology that keeps track of tire pressure and alerts you to low pressure through the Driver Information Center—indicating exactly which tire is low.

[1]Does not monitor spare tire.

If installed after delivery, coverage (parts and labor) is for the balance of the new-vehicle warranty or a minimum of 12 months/12,000 miles, whichever comes first. GM Accessories not requiring installation or purchased over the counter carry a 12-month limited warranty (parts only). Does not apply to licensed products. [2]Offered as a dealer-ordered accessory option. [3]Cargo and load capacity limited by weight and distribution. [4]Use only GM-approved wheel and tire combinations. Unapproved combinations may change the vehicle's performance characteristics. For approved wheel and tire combinations and other important information, go to gmaccessorieszone.com or see your dealer for details. [5]Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight your vehicle can tow. See your dealer for details. [6]When properly equipped; includes weight of vehicle, passengers, cargo and equipment.

ONSTAR

OnStar is a core asset of your Acadia. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. Standard on most Acadia models are six months of the OnStar Directions & Connections plan, including the convenience of Hands-Free Calling. It also includes Automatic Crash Response (see page 14), Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage maps, details and system limitations. Services vary with conditions.

HANDS-FREE CALLING

OnStar Hands-Free Calling capability is built into your Acadia. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls shown on page 5. Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception. You are invited to experience the benefits yourself with 30 Hands-Free Calling minutes—on OnStar—during the first two months you drive your Acadia, with no strings attached.

ONSTAR TURN-BY-TURN NAVIGATION

Standard on all Acadia models are six months of the OnStar Directions & Connections plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Acadia. If you drive off-course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV, allowing you to send Google® Maps and MapQuest® directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

XM RADIO

On all Acadia models, XM Radio[1] is standard with 3 trial months of service. XM turns your drive on with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Everything worth listening to is now on XM. Visit gm.xmradio.com for details.

XM NAVTRAFFIC

Included with the available Touch-Screen Navigation System, 3 trial months of XM NavTraffic[2] enhances Acadia's GPS navigation system by showing real-time traffic data—while you're driving. Available in over 80 markets, XM NavTraffic displays construction, road closures and accidents so that you can get to your destination faster, plus average traffic speed and estimated drive time in select markets. For more information, visit xmradio.com/navtraffic.

GOODWRENCH SERVICE

To help your Acadia live up to its performance promise, GMC Goodwrench Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Acadia, GM-trained Goodwrench technicians have the expertise to care for all of it.

[1]XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit gm.xmradio.com.

[2]Required XM Radio and NavTraffic monthly subscriptions sold separately by XM after trial period. XM NavTraffic only available in select markets. For more information, visit xmradio.com/navtraffic.

COMMITMENT PLUS

From the owner orientation—and full tank of gas—you receive when you take possession of your Acadia to the **24-Hour Roadside Assistance, Courtesy Transportation** and **Travel Benefits**, Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8782.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

GMC OWNER CENTER A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to gm.com/gmownercenter/gmc.

CONFIDENCE IS STANDARD Acadia offers a comprehensive consumer confidence package that is among the best in the industry. It means you get all the benefits of Commitment Plus, including Roadside Assistance and Courtesy Transportation, along with the GM 5-Year/100,000-Mile Transferable Powertrain Limited Warranty (whichever comes first). Ask your GMC dealer for all the details.

A NOTE ON CHILD SAFETY Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

TRAILERING AND OFF-ROAD INFORMATION Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

ASSEMBLY GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMMOBILITY.COM (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.
