

KIA.SPORTAGE

Good things come in perfectly sized packages. Introducing the completely redesigned, all-new 2011 Kia Sportage. It delivers the key performance benefits of a crossover, including carlike, agile handling, a smooth ride and excellent fuel efficiency.¹ It also offers available advanced features that range from a cooled driver's seat* to streaming audio via a Bluetooth^{®2} wireless technology-enabled device. This means that while the Sportage is just plain fun to drive, it's also designed to take first-class care of its passengers.

1, 2, * See Features and Specifications pages for availability and endnotes. *Available on EX only. EX WITH PREMIUM PACKAGE W/ LEATHER SEATS SHOWN.

Impressive. Any way you look at it. From every angle, the new Kia Sportage reveals sleek, contemporary exterior styling. Inside, it combines striking design and practicality with easily configurable seating and an available panoramic sunroof.* Advanced safety systems, such as a Traction Control System (TCS) and Electronic Stability Control (ESC), help ensure your peace of mind. Like all Kia models, the Sportage comes with an industry-leading 10-year/100,000-mile warranty program.³ All of which shows that it's easy to recognize real value when you see it.

1, 3, 4, 5, 6, * See Features and Specifications pages for availability and endnotes. *Available on EX only. EX WITH PREMIUM PACKAGE W/LEATHER SEATS SHOWN.

SOLID PERFORMANCE

The Sportage is equipped with a 2.4L 176-hp⁴ 4-cylinder engine that provides outstanding acceleration and fuel efficiency.¹ Available full-time all-wheel drive⁵ delivers enhanced traction and control.

SPORTY OPTIONS

Available push-button start with Smart Key remote⁶ offers convenient operation. The available 6-speed Sportmatic[®] transmission lets you choose between automatic shifting or, for a sportier drive, clutch-free manual shifting.

INNOVATIVE TECHNOLOGY

An available voice-activated navigation system lets you make more efficient use of driving time. An available back-up warning system[®] detects objects you might not see behind your vehicle.

ADVANCED SAFETY SYSTEMS

From Electronic Brake-force Distribution (EBD) to active front headrests, the new Sportage offers active and passive safety systems that are comprehensive and advanced, all as standard equipment.

Substance dramatically coexisting with style. The new Sportage provides spacious seating for five adults, and that's just the beginning of its accommodating design. It has an available power driver's seat with lumbar support and, for your and your front passenger's comfort, available dual-zone temperature control with an advanced, ionized air-filtration system* that provides purified air. Equally impressive interior styling is highlighted by a sleek, sculpted instrument panel that has a contemporary design.

*Available on EX only. See Features page for availability. EX WITH PREMIUM PACKAGE W/LEATHER SEATS AND NAVIGATION PACKAGE SHOWN.

Ahead of the technological curve. The new Sportage has advanced technology designed to enhance your comfort, convenience and audio entertainment. Available features include heated front seats,* a cooled driver's seat,* SIRIUS Traffic™⁷ for advance notice about traffic jams and a Smart Key that lets you unlock the door and start the engine with the key in your pocket.* The Sportage also lets you enjoy streaming audio using a *Bluetooth*®² wireless technology-enabled device.

HEATED FRONT SEATS*

The available heated driver's and front passenger's seats help take the chill off a cold morning. Heating occurs even before the engine has completely warmed up.

COOLED SEAT*

The available cooled driver's seat features perforations that allow air to circulate. For optimum comfort, choose from multiple air-flow settings.

BACK-UP WARNING SYSTEM

An available sonar sensor system is concealed in the rear bumper. It activates a distinct audible warning when it detects an object you might not be able to see behind your vehicle.⁶

USB/AUXILIARY MP3 JACKS

Now you have the freedom to listen to your favorite tunes from your own music library. An accessory cable integrates your iPod® mobile digital device⁵ with the audio-system controls.

PUSH-BUTTON START*

The available Smart Key remote is very convenient. Even with it tucked in a pocket or purse, you can start or stop the engine with the push of a button, or lock and unlock doors from outside.

SIRIUS® SATELLITE RADIO

Get over 130 channels, including 100% commercial-free music, plus all your favorite sports, news, talk and entertainment. It all comes with crystal-clear, coast-to-coast coverage 24/7.⁷

SIRIUS
SATELLITE RADIO

Bluetooth

BLUETOOTH® WIRELESS TECHNOLOGY

Enjoy your Bluetooth® wireless technology-enabled cell phone with hands-free simplicity.

STEERING-WHEEL CONTROLS

Conveniently operate the audio system and your Bluetooth® wireless technology-enabled devices with steering-wheel-mounted controls

DUAL-ZONE AUTOMATIC TEMPERATURE CONTROL*

The available dual-zone system lets driver and front passenger set their own temperature to create individual comfort zones.

NAVIGATION SYSTEM

Available voice-command navigation includes a vivid color touch screen and real-time highway conditions from SIRIUS Traffic.™³

AUTO-DIMMING MIRROR*

This available auto-dimming feature automatically dims to reduce glare. The mirror has three programmable HomeLink® buttons.⁹

2, 6, 7, 8, 9, * See Features and Specifications pages for availability and endnotes. ³Available on EX only. EX WITH PREMIUM PACKAGE W/LEATHER SEATS AND NAVIGATION PACKAGE SHOWN.

There's something new under the sun. The new Sportage is roomy and versatile. The comfortable seats easily reconfigure for abundant cargo space. Countless compartments — even an available cooled glovebox — help you keep your personal items readily at hand. A dramatically designed tilt-and-slide panoramic sunroof is also available, and it extends along the length of the roof for you to enjoy big-sky views.

CONVENIENT CONSOLE

Along with two cup holders, the center console features a large bin to keep personal items close at hand. The lid serves as a comfortable padded armrest.

RETRACTABLE CARGO COVER

The available cargo cover helps keep your gear safely out of sight. A 12-volt power outlet in the side wall of the roomy cargo area is one of three in the cabin.

CONCEALED STORAGE

A spacious compartment hidden beneath the cargo floor helps you manage cargo-area clutter. The removable tray keeps any loose items neatly organized.

60/40 EASY-FOLD REAR SEAT

The rear seat folds down in a 60/40 split to accommodate people and cargo. Available auto-folding seatbacks lower with the pull of a strap behind each seat¹⁰.

¹⁰ See Specifications page for endnote. EX WITH PREMIUM PACKAGE. W/LEATHER SEATS AND NAVIGATION PACKAGE SHOWN.

Driving exhilaration. The Sportage is designed to let you dial up the fun factor every time you drive. Its 176-hp⁴ DOHC engine provides outstanding acceleration combined with excellent fuel efficiency.¹ With its compact design, it's engineered for agile, sporty handling. Available all-wheel drive provides optimum traction as road conditions change. With four-wheel independent suspension, the Sportage also offers a remarkably smooth and comfortable ride.

1, 4, 5 See Specifications page for endnotes. EX WITH PREMIUM PACKAGE SHOWN.

POWER AND EFFICIENCY

Sportage's 2.4L DOHC 4-cylinder engine delivers an impressive 176 hp² and up to 31 highway mpg¹. Continuously Variable Valve Timing (CVT), automatically adjusts valve timing to provide increased power, to reduce exhaust emissions and improve fuel efficiency.

SMOOTH, PRECISE HANDLING

For smooth performance, a four-wheel independent suspension features front MacPherson struts and a rear multi-link design. Speed-sensitive Electric Power Steering (EPS) delivers directional precision.

SPORTMATIC® SHIFTING

The available 6-speed Sportmatic® transmission lets you choose between automatic operation or sporty clutch-free manual shifting on demand.

ALL-WHEEL DRIVE

Sportage has front-wheel or available full-time all-wheel drive.³ The AWD system uses electronic sensors to monitor road conditions, and then, for enhanced traction and control, distributes power to the appropriate wheels.

Active safety systems. The Sportage features advanced active safety features designed to help give you peace of mind every time you drive. Each one is engineered to help you maintain control, even in challenging road conditions and in some emergency situations. These safety systems are designed to function automatically, leaving you free to focus on safe driving.

EX WITH PREMIUM PACKAGE W/LEATHER SEATS SHOWN.

ELECTRONIC STABILITY CONTROL
ESC monitors your vehicle's response during emergency maneuvers. It then controls the engine and brakes to help keep your Sportage on course.

TRACTION CONTROL SYSTEM
When TCS senses wheel spin during acceleration, it uses engine power and brake force to transfer power to the wheels that have the most traction.

BRAKE ASSIST SYSTEM
If BAS detects emergency braking, based on how quickly you step on the brake pedal, it instantly applies full braking force, which helps shorten your overall stopping distance.

ELECTRONIC BRAKE-FORCE DISTRIBUTION
To help maintain more consistent braking as vehicle loads and weight distribution change, EBD adjusts the front-to-rear balance of brake pressure.

HILL ASSIST CONTROL
To help keep you from rolling backward when starting off on a steep hill, HAC automatically holds the brake pressure for two seconds after you take your foot off the brake pedal.

DOWNHILL BRAKE CONTROL
When descending a steep slope, the DBC system automatically maintains a steady 5 mph without the need for you to step on the accelerator or brake pedals.

Prepared for the unexpected. Sportage's safety systems are designed to help minimize injury when a traffic accident is unavoidable. The front seats feature active headrests and seat-belt pretensioners with force limiters. Dual front airbags, front-seat-mounted side airbags and side curtain airbags for both front and rear seating positions are managed by an advanced sensor system that can even respond in certain rollover situations.¹¹ Sportage wraps all of it — and you — in a protective, high-strength steel-reinforced body.

AIRBAG & SEAT-BELT SENSORS
This advanced system monitors the severity of an impact, the presence of a front passenger and seat-belt use, and then controls airbag inflation accordingly.¹¹

ROLLOVER SENSOR
If the airbag sensors detect an impending rollover, the system can deploy the side airbags, side curtain airbags and seat-belt pretensioners.¹¹

FRONT ACTIVE HEADRESTS
In the event of certain rear collisions, the active headrests automatically move up and forward, helping to reduce the likelihood of neck injury.

REINFORCED BODY
All doors are reinforced with steel beams to help absorb impact energy and deflect side-impact force. Both the A and B pillars are also reinforced to help minimize impact damage.

FRONT SEAT-BELT PRETENSIONERS
During certain collisions, pretensioners tighten seat-belt slack. They then let out the appropriate amount of additional belt to limit pressure on the body.

TIRE-PRESSURE MONITORING SYSTEM
This system includes air-pressure sensors located at each wheel. If a tire reaches a specified low air pressure, a warning light will alert you.¹²

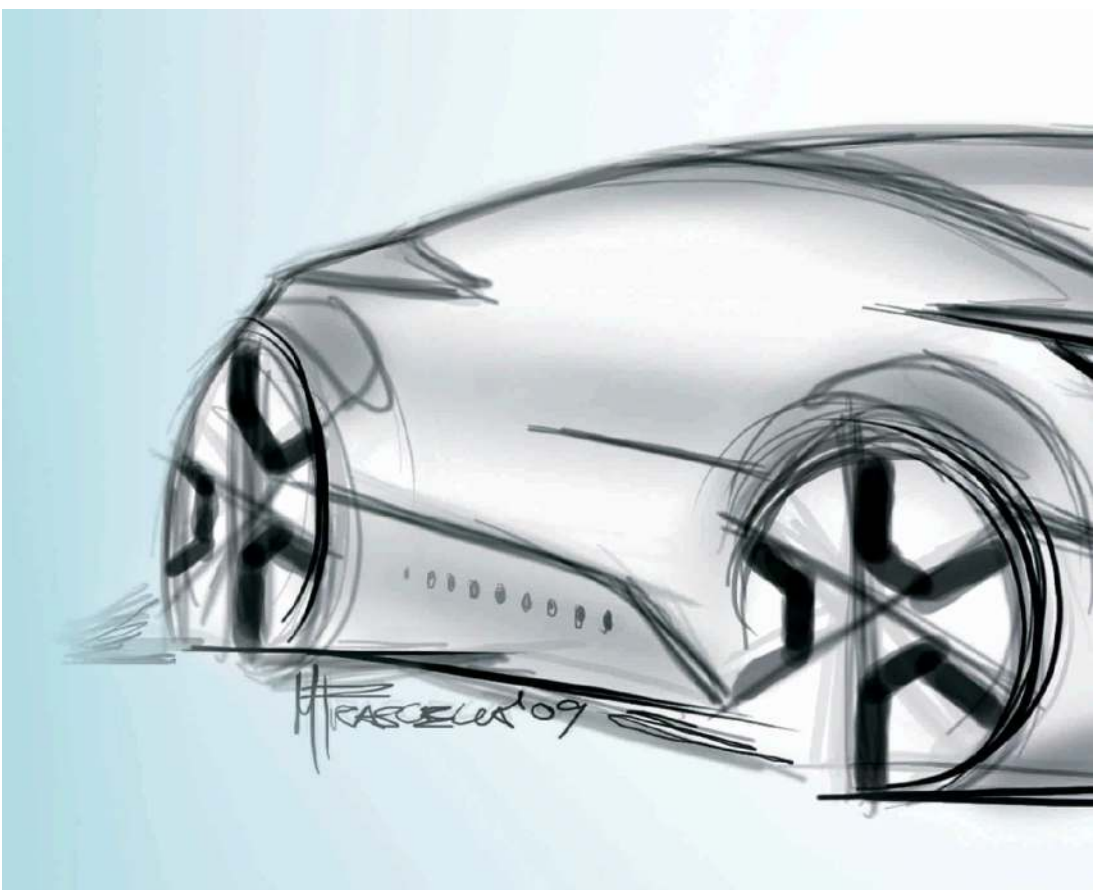

LATCH SYSTEM
The standardized LATCH system (Lower Anchors and Tethers for Children) makes it easier to securely install a compatible child seat in any of the three rear seating positions.

The Power to Surprise.[®] For decades, Kia Motors has focused on building vehicles that reflect a commitment to quality, durability and product innovation. Today, we offer models to suit most every driving need. The value inherent in every Kia vehicle has been widely recognized — one reason for Kia Motors' growing success in America and the sale of its 3 millionth vehicle in the U.S.A.

COMMITMENT TO AMERICA

Kia Motors has reached a special milestone: the opening of a brand-new \$1-billion state-of-the-art manufacturing facility in West Point, Georgia. At full capacity, the plant can produce up to 300,000 vehicles a year. Production of the new 2011 Sorento is currently under way there, making it Kia Motors' first-ever vehicle to be built in the U.S.A.* The plant will generate more than just high-quality vehicles. Over 2,500 new jobs are expected to be created at the facility and up to 7,500 additional jobs in the surrounding area. It's all part of Kia Motors' commitment to America — a commitment that is sure to grow and strengthen in the years ahead.

*Assembled in the United States from U.S. and globally-sourced parts 3, 13, 14, 15, 16 See Specifications page for endnotes.

PRIDE OF QUALITY

Kia Motors designs and develops vehicles and rigorously puts them to the test at high-tech facilities and proving grounds worldwide. The result is a full line of vehicles with world-class quality.

SELLING STRONG

In 2010, Kia Motors sold its 3 millionth vehicle in the U.S.A., and it took less time to reach that milestone than Toyota.¹³ In fact, Kia has outsold Lexus, Subaru, Volkswagen and Mazda.¹⁴
